

How Bidding Works:

Once registered, logged in, and escrow has been deposited, you're able to bid once bidding opens. Each auction will show the existing high bid and the minimum incremental bid. To place your bid, simply enter a bid at or above the minimum incremental bid.

How To Register To Bid:

To register, either click the "Register" link in the upper right hand corner of the home page or click on the "Register To Bid" button at the bottom of each auction listing. Once registered, escrow is required to bid.
